# DST-13-480/1S

## **DIGITAL CONTROLLED PHASE SHIFTER**

### Logic Table

| State | Pin 1 | Pin 2 | Pin 3 | Pin 4 | Pin 5 | Pin 6 | Pin 7 | Pin 8 | Phase (deg.) |
|-------|-------|-------|-------|-------|-------|-------|-------|-------|--------------|
| -     | 1     | 1     | 1     | 1     | 1     | 1     | 1     | 1     | 0°           |
| 1     | 0     | 1     | 1     | 1     | 1     | 1     | 1     | 1     | 1.4°         |
| 2     | 1     | 0     | 1     | 1     | 1     | 1     | 1     | 1     | 2.8°         |
| 3     | 1     | 1     | 0     | 1     | 1     | 1     | 1     | 1     | 5.6°         |
| 4     | 1     | 1     | 1     | 0     | 1     | 1     | 1     | 1     | 11.2°        |
| 5     | 1     | 1     | 1     | 1     | 0     | 1     | 1     | 1     | 22.5°        |
| 6     | 1     | 1     | 1     | 1     | 1     | 0     | 1     | 1     | 45°          |
| 7     | 1     | 1     | 1     | 1     | 1     | 1     | 0     | 1     | 90°          |
| 8     | 1     | 1     | 1     | 1     | 1     | 1     | 1     | 0     | 180°         |

A combination of the above states will provide a phase shift equal to the sum of the selected states at center frequency.

#### Pin-Out

Pin 01 = Phase: 1.4 (LSB) Pin 09 = N/CPin 02 = Phase: 2.8 Pin 10 = N/CPin 03 = Phase: 5.6 Pin 11 = N/C Pin 04 = Phase: 11.25 Pin 12 = N/CPin 05 = Phase: 22.5 Pin 13 = +5 Vdc

Pin 06 = Phase: 45 Pin 14 = -5 Vdc Pin 07 = Phase: 90 Pin 15 = Ground

Pin 08 = Phase: 180

DST-13-480/1S Name:

Frequency Range: 2-4 GHz Insertion Loss: 6.0 dB max.

Number of Bits:

Least Significant Bit: 1.4° LSB Phase Range: 360°

VSWR: 1.80:1 dB max.

Connector Type: **SMA** 

Phase is  $\pm 3.0\%$  at center frequency.

Other frequency bands and resolution ranges available.
